

## NEBOSH International Diploma in Occupational Health and Safety

*A globally recognized qualification for health, safety and risk management*

### About this course:

This NEBOSH course is delivered in association with **International HSE Council**.

NEBOSH International Diploma is internationally recognized qualification aimed at occupational health and safety advisors and environmental consultants. There is no prerequisite for this qualification, but it is greatly recommended to have an extensive knowledge in the health and safety of the worksite. The International or National General Certificate training is advised.

### Intended for:

The International Diploma is designed for occupational health and safety professionals, giving them the expertise to undertake a career as an internationally recognized health and safety practitioner.

### Course content:

The course is divided into 4 Units:

**Unit IA:** International Management of Health and Safety

**Unit IB:** International Management of Hazardous Agents in the Workplace

**Unit IC:** International Workplace and Work Equipment Safety

**Unit ID:** Application of International Health and Safety Theory and Practice

### Certification and assessment:

This course is assessed through the 3-hour exams for Units IA, IB & IC and a workplace-based assessment for Unit ID which are set by NEBOSH. You will receive a diploma from NEBOSH.
