

### About this course:

This NEBOSH course is delivered in association with **International HSE Council**.

### Intended for:

Individuals who wish to gain knowledge and skill about health and safety at work and also for companies that want their workers have awareness and adequate knowledge about health and safety matters.

### Course content

#### The syllabus is divided into 2 units:

- Unit HSW1: Workplace Safety Foundations
- Unit HSW2: Workplace Risk Assessment Activity

There are 10 elements in Unit **HSW1** which covers a range of workplace hazards and methods of control. These are as follows:

- Foundations of Health and Safety
- Responsibility for Health and Safety
- Health and Safety Risk Management and Control
- Transport Safety
- Fire Safety
- Hazards and Control Associated with Working Facility
- Hazards and Control Associated with Work Equipment
- Hazards and Controls Associated with Working Environment
- Hazards and Controls Associated with Hazardous Substances
- Hazards and Controls Associated with Manual Handling and Repetitive Movement

The second Unit **HSW2** Risk Assessment Practical Application is aimed at assessing candidate's ability to conduct a general risk assessment.

### Course duration and assessment:

The training will be taken within 3 days plus a 45 minutes multiple choice exam and a two-hour Risk Assessment Practical Application.
