

## **NEBOSH International Technical Certificate in Oil and Gas Operational Safety**

### **About this Course:**

This NEBOSH course is delivered in association with **International HSE Council**.

### **Intended for:**

Managers, supervisors, employee representatives who are required to ensure safety as their daily practice and for any working personnel who wants to cultivate their own knowledge and skills in this particular field.

### **Course content:**

The NEBOSH International Oil and Gas Certificate covers the principles of process safety management in the oil and gas industries. The syllabus takes a risk management approach based on best practice and international industry standards.

### **Element:**

1. Health, safety and environmental management in context
2. Hydrocarbon process safety
3. Hydrocarbon process safety
4. Fire protection and emergency response
5. Logistics and Transport Operations

### **Course duration and assessment:**

The training is 5 days plus one day exam.

The assessment is a 2-hour written paper which consists of ten 'short-answer' questions and one 'long-answer' question. All questions are required to answer.
